  - ✓ The lab would be set up along with Sutherland Global Services Private Limited, with whom the University will sign the MoU on April 26
  - ✓ Sutherland will fund and facilitate the lab through their Corporate Social Responsibility (CSR).
  - ✓ They will create the lab in the women's studies department and offer workshops and training to students, faculty members and administrative staff in the university and its affiliated colleges
  - ✓ The gender lab is a beginning towards reducing the growing rates of sexual harassment and gender-based violence in society at large

### **NATIONAL**

- ◆ **India's first laboratory meat project to produce "ahimsa meat" - took off on April 25 with the Hyderabad-based Centre for Cellular and Molecular Biology (CCMB) and National Research Centre on Meat (NRCM) coming together for the project**
  - ✓ With an initial funding of ₹4.5 crore for two years by the department of biotechnology, scientists will develop mutton and chicken from stem cells, without animal rearing
  - ✓ The clean meat, CCMB scientists said, is nutritionally equivalent to conventional animal meat and it tastes, smells, looks and feels the same
  - ✓ Experts said using the technology and producing meat in the lab would mean there would be no need to raise and slaughter animals for meat

- ✓ During a summit on the future of protein and food technology revolution held in August 2018, Union minister Maneka Gandhi had advised CCMB to make cell-based ahimsa meat on commercial scale in the next five years.
- ✓ The funding has come almost a year after the CCMB, in association with the Humane Society International (HSI) and Good Food Institute (GFI), held the first-ever meet to discuss clean meat last year.
- ✓ The Atal Incubation Centre of the CCMB has been partnering with the HSI to promote clean meat sector
- ✓ Governments in the Netherlands, Japan and Israel have been supporting clean meat companies

◆ **Maruti Suzuki, the country's largest carmaker – to stop making Diesel cars from April 2020**

- ✓ The new, stricter BS6 emissions kick in April 2020
- ✓ The reason, according to Maruti Suzuki, is higher manufacturing cost on account of stricter BS6 emission norms that would make diesel vehicles significantly expensive for customers
- ✓ The company offers diesel on as many as eight models, with two of them — the Brezza and SCross SUVs — carrying it exclusively
- ✓ Other models that come with both diesel and petrol options include Swift and Baleno hatchbacks, Dzire, Ertiga MPV, Ciaz, and Super Carry.
- ✓ It had started the manufacturing of diesel cars in 1999 with the launch of Zen mini car
- ✓ Delhi-NCR has already capped the life of diesel cars at 10 years against 15 years for petrol in view of the growing concern over vehicular pollution

# INTERNATIONAL

## ◆ **Israeli Prime Minister, Benjamin Netanyahu - has announced that he would name a new community in the Golan Heights after US President Donald Trump.**

- ✓ President Trump has officially recognised the disputed area as Israeli territory. Israel has also stated that in appreciation of the U.S. president, it intends to name a proposed train station near Jerusalem's Western Wall after him.
- ✓ Israel captured the Golan from Syria in the 1967 Middle East war and annexed it, in a move not recognized internationally.
- ✓ Golan Heights is located about 60km (40 miles) south-west of the Syrian capital, Damascus, and covers about 1,200 sq km (400 sq miles).
- ✓ Syria has always insisted that it will not agree a peace deal with Israel unless it withdraws from the whole of the Golan.
- ✓ The last US-brokered direct peace talks broke down in 2000, while Turkey mediated in indirect talks in 2008.
- ✓ There are more than 30 Israeli settlements in the Golan, which are home to an estimated 20,000 people. The settlements are considered illegal under international law, although Israel disputes this.
- ✓ The settlers live alongside some 20,000 Syrians, most of them Druze Arabs, who did not flee when the Golan was captured.

## ◆ **Russia - has successfully tested the world's first floating nuclear power plant (NPP), Akademik Lomonosov**
